## About Us

Learn More

Our premises has housed a dental practice for over 100 years and so is well established in the community. This is essentially the oldest dental clinic in Watford!

Dr. Murgai acquired the practice in January 2004 and has lived up to his aspirations and promise to create the most high-tech and advanced practices in the UK. We continue to evolve!

We have dental treatment facilities as well as skin therapy facilities to provide facial rejuvenation procedures.

Throughout the clinic we have up-to-date equipment that helps the team provide all of our treatments in-house.

We also have an on-site dental laboratory that means we can complete complex dental treatments more quickly with our extended dental team all in one place.

Everything is maintained according to the manufacturers' specifications so that every client benefits from our skills in a safe environment.

### Dental Implant

A dental implant is essentially a substitute for a natural root and commonly it is screw shaped.

Learn More

### Emergency

Here at Skin & Smiles we take pride in being able to make a fast diagnosis, and provide options. That means we can usually solve dental emergencies and pain quickly.

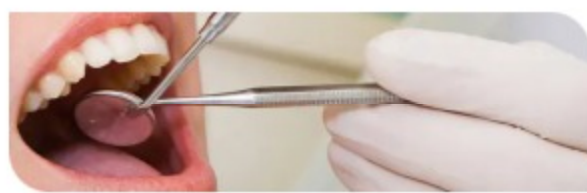

Learn More

### Same Day Crowns

At Skin & Smiles, our dentists use computer technology so you can be in and out in a **single visit** with a definitive, all ceramic **crown**, onlay, or veneer!

Learn More

### General Dentistry

Throughout the clinic we use high-tech equipment that helps the staff provide all of our treatments in-house.

Examinations, fillings, root treatment & more.

Learn More

### Facial Rejuvenation

We have been providing injectable skin therapies successfully since 2006. Whether you want to rejuvenate or get a lift for a special occasion, we can help with dermal fillers and wrinkle-reduction products.

Learn More

### Orthodontics

Here at Skin & Smiles we have been providing orthodontic services to both adults and children for 20 years with conventional braces and clear aligners.
